

PELHAM Training update

Update Achievements and Tests

Objective: how to add and update member achievements and tests.

Members:

- Individual Achievements and Badges
 - Deactivate in case of error
- Individual tests
- Bulk Upload of Badges and Tests

Overview

- BADGES in Pelham are known as “Achievements”
- Categories currently are:
 - Mini Achievement
 - Achievement
 - Advanced Achievement
 - Progressive Awards
- Unfortunately, as many mini and achievement badges have the same name, each badge has to be prefixed “Mini Achievement – xxxx” or “Achievement – xxxx” to ease searching
- When searching, use the * and then type the badge name and correct options should be displayed.
- TESTS in Pelham are categorised as “Efficiency Tests”
 - Introduction to Steps to Coaching is categorised as a Coach qualification, but is added in the normal member achievement process.

Update Achievements / Tests

Step 1: find the contact whose achievement you wish to update using the various search options available (you will have a preferred option).

The screenshot displays the PELHAM Branch App interface. At the top, there is a dark blue header with the PELHAM logo and 'Branch App' text. A 'Global Search' callout points to a search icon. Below the header, a navigation bar contains various icons and a search bar with the text 'emma stringer'. A callout 'Enter search text here to search this view ONLY' points to the search bar. The main content area shows a table titled 'Current Branch Members (Branch)'. A callout 'Use Filter to choose other Views' points to a dropdown menu. The table has columns for various member details, including 'Pony Club Num...', 'First N...', 'Last N...', 'Date of Birth', 'Age 1st Jan...', 'Membership Riding', 'Membership Expiry ...', 'Latest Test (Passed)', 'Date of Last Test (Pa...', 'Member Administrat...', 'Email (Member Administrator)', and 'Emergency 1 Contact'. A callout 'This can be ignored' points to a small icon in the first row. The table contains several rows of data, with one row showing a 'Test - C Standard' result.

Update Achievements / Tests

Once the test/badge is selected, add date passed:

This screenshot shows the 'Update Achievements / Tests' form. The 'Date Achieved' field is highlighted with a yellow callout that says 'use calendar or type in'. The calendar shows the date 17th of May 2021 selected. Other fields include 'Contact', 'Qualification' (Achievement Badge - Farming), 'Blue Badge Eligible?' (No), and 'Qualification Type' (Achievement). A yellow callout points to the 'Blue Badge Eligible?' field with the text 'information only'.

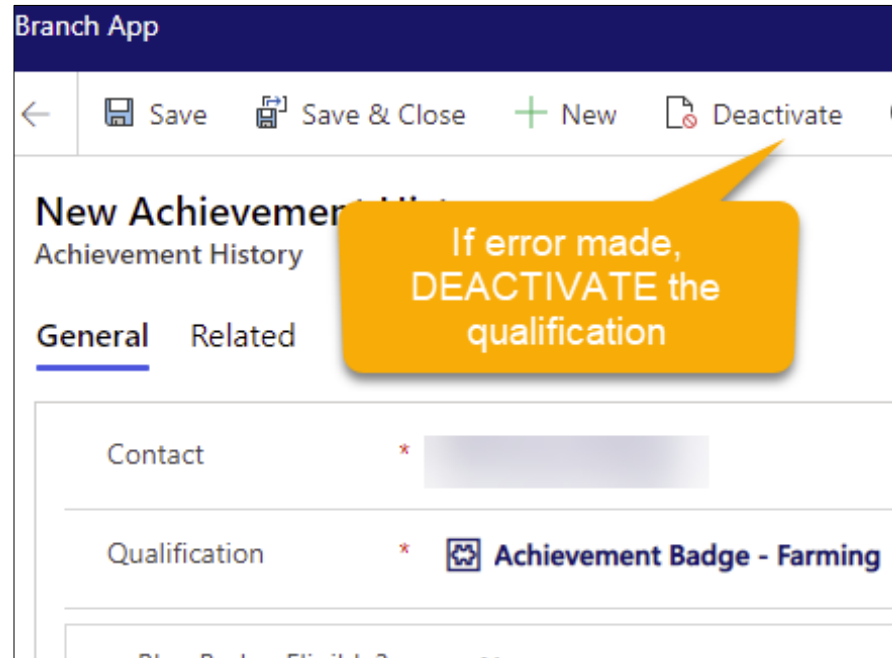

This screenshot shows the 'General' tab of the form. The 'Date Achieved' field is now populated with '03/05/2021' and has a yellow callout that says 'no expiry date for Badges/Tests'. Other fields include 'Contact', 'Qualification' (Achievement Badge - Farming), 'Blue Badge Eligible?' (No), 'Qualification Type' (Achievement), and 'Owner' (Branch Heythrop Hunt).

Once complete, press **Save & Close**

This screenshot shows the 'Save & Close' dialog box. The title is 'Test - Lungeing Test - Saved'. Below the title, there is a 'General' tab selected. The form fields are visible, including 'Contact' and 'Qualification' (Test - Lungeing Test). The 'Save & Close' button is highlighted in yellow.

Update Achievements / Tests

If you have saved the achievement and then realise it is a mistake, you must DEACTIVATE that achievement and create another

Bulk upload Achievements / Tests

If you have a lot of badges/tests to add, you may wish to use the bulk upload feature. Specific user guide and template for this on the Pelham site.

The import uses an excel file, so it is probably best to start using it as you are setting up your rallies and tests.

However, the only data permitted in the file for upload is Pony Club number, Qualification name, Date Achieved and Expiry date (left blank for badges/tests)

Top tip:

If you use an excel spreadsheet including the above fields AND the member name to track who is doing what, you can then delete the columns with the member name, save as CSV and you have your upload file.
